NEWS RELEASE**Mumbai (23rd June 2026)****Notice of Force Majeure Event – Water Supply Disruption at Lote Manufacturing Facility**

We wish to inform you that Maharashtra Industrial Development Corporation (MIDC), vide its communication dated June 16, 2026, has notified industrial units in the Chiplun/Lote region regarding the suspension of water supply for an indefinite period due to inadequate rainfall, low water levels in the Koyna Dam, and the resultant non-release of water into the Vashishti River.

The Company's manufacturing facility at Lote, Maharashtra, depends on water supplied by MIDC. The aforesaid circumstances are beyond the Company's reasonable control and have the potential to adversely affect manufacturing operations, production schedules, and product dispatch from the Lote facility.

Accordingly, this communication is being issued to notify you of the occurrence of a Force Majeure event and to reserve all rights and remedies available to the Company under the applicable contract(s), including any Force Majeure provisions, to the extent applicable.

At present, the Company is actively undertaking all reasonable measures to mitigate the impact of the water shortage and minimize disruption to customer supplies. However, there may be delays, production curtailments, or changes to delivery schedules until normal water supply is restored.

We will continue to closely monitor the situation and keep you informed of any material developments. Our teams will remain in touch with you regarding order prioritization, revised delivery schedules, and any other operational matters that may require coordination.

We appreciate your understanding and cooperation during this unforeseen situation.
