NEWS RELEASE

Laxmi Organic Industries Ltd announces price revision for Essentials Products

Mumbai (29th June 2026)

Dear Valued Customer,

Acetic acid producers continue to raise offers due to low inventories and tight supply conditions. In India, port inventories remain at depressed levels, driving a sharp rise in domestic prices over the recent days.

Ethanol prices have also increased in the local market due to higher corn prices and high demand from OMCs.

In view of the sharp increase in raw material costs and ongoing production constraints led by water crisis in Maharashtra, we are implementing the following price increase to sustain our operations and ensure uninterrupted supplies:

Product	Increase (₹/kg)
Ethyl Acetate	+5.00
Acetic Anhydride	+5.00
n-propyl acetate	+5.00
Acetaldehyde	+5.00

Customers are advised to plan their requirements in advance to ensure continuity of supply.

For any clarification, please contact your respective Relationship Manager or Sales Manager.
