STANDALONE FINANCIAL RESULTS 2019-2020

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Laxmi Organic Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Financial Statements of Laxmi Organic Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of Significant Accounting Policies and other explanatory information. (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects arising out of matters in our Basis of Opinion paragraph, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, the profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for the Other Information. The Other Information comprises the information included in the Board's report including the Directors Report, Management Discussions and Analysis, Summarized Financial Information, Corporate Governance and Shareholder's Information but does not include the Financial Statements and our Independent Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the Other Information and we do not and will not express any form of assurance or conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the Other Information identified above and, in doing so, consider whether the Other Information ismaterially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this Auditor's Report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other sections of Annual Report (other than those mentioned above), if we conclude that there is a material misstatement there in, we are required to communicate the matter to those charged with governance and take necessary actions, asapplicable under the applicable laws and regulations.

Responsibilities of Management and those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows

of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant

ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the attached Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
 - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 29 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were material foreseeable losses;
 - iii. There are no amounts which are required to be transferred to Investor Education and Protection Fund by the Holding Company and its subsidiary company incorporated in India.

UDIN-

ANNEXURE-A

To the Independent Auditors' Report on the Financial Statements of Laxmi Organic Industries Limited

- (i) a. The Company has generally maintained proper records showing full particulars including quantitative details and situation of its fixed assets.
 - b. Fixed assets have been physically verified by the management during the year and no material discrepancies were identified on such verification.
 - c. According to the information and explanation given to us and on the basis of our examination of the records of the Company, the title deeds of the Company are physically lying with IDBI Trusteeship Services Limited, Security Trustee to the lenders towards security for charge created under the Loan Agreements. We have obtained the confirmation from IDBI trusteeship about the title deeds which are in the name of the Company are lying in their possession.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year. The discrepancies noticed between the book stock and the physical stocks were not material and they have been properly dealt with in the books of accounts.
- (iii) The Company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained u/s 189 of the Companies Act, 2013 and hence the sub clauses (a) and (b) of clause 3(iii) of the Companies (Auditor's Report) Order, 2016 is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 with respect to loans, investments, guarantees and security given.
- (v) The Company has not accepted any deposit from the public pursuant to sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and rules framed thereunder. As informed to us, there is no order that has been passed by Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal in respect of the said sections.
- (vi) As informed to us, the maintenance of the cost records under the sub-section (1) of section 148 of the Companies Act, 2013 has been prescribed and we are of the opinion that prima facie, the prescribed accounts and records have been maintained. We have not, however, carried out a detailed examination of the records to ascertain whether they are accurate or complete.
- (vii) a. The Company has been regular in depositing undisputed statutory dues including Provident fund, Employees State Insurance, Income Tax, Sales Tax, Service Tax, Custom Duty, Excise Duty, Cess, Goods & Services Tax and other statutory dues with the appropriate authorities during the year. According to the information and explanations given to us, no undisputed amount payable in respect of the aforesaid dues were outstanding as at March 31, 2020 for a period of more than six months from the date of becoming payable.
 - b. According to the information and explanations given to us, there are no dues of Sales Tax, Income Tax, Service Tax, Duty of Customs or Duty of Excise or Value Added Tax which have not been deposited on account of any dispute except as given below:

| Name of the Statute | Nature of the dues | Amount (`in Lacs) | Period to which it relates | Forum where Dispute is pending |
|-------------------------|------------------------------|-------------------|----------------------------|--------------------------------|
| Income Tax Act, 1961 | Additions during assessments | 22.91 | AY 2013-14 | CIT-Appeal |

- (viii) According to the information and explanations given to us and based on the documents and records produced to us, the Company has not defaulted in repayment of dues to the financial institution or banks. Further, the company has not obtained any borrowings by way of debentures.
- (ix) The company has not raised any money by way of public issue / follow-on offer (including debt instruments). However, term loans taken during the year is utilised for the purpose for which it was raised.
- (x) According to the information and explanations given to us and to the best of our knowledge and belief no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.

- (xi) The managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with schedule V to the Companies Act, 2013.
- (xii) The Company is not a Nidhi Company. Hence clause 3(xii) of Companies (Auditors Report) Order 2016 is not applicable to the Company.
- (xiii) All transactions with the related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 in so far as our examination of the proceedings of the meetings of the Audit Committee and Board of Directors are concerned. The details of related party transactions have been disclosed in the Financial Statements as required by the applicable Accounting Standard.
- (xiv) The company has not made any preferential allotment / private placement of shares or fully or partly convertible debentures during the year under review and hence the clause 3(xiv) of the Companies (Auditors Report) Order, 2016 is not applicable to the Company.
- (xv) The company has not entered into any non-cash transactions with directors or persons connected with him and hence the clause 3(xv) of the Companies (Auditors Report) Order, 2016 is not applicable to the Company.
- (xvi) The nature of business and the activities of the Company are such that the Company is not required to obtain registration under section 45-IA of the Reserve Bank of India Act 1934.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Financial Statements of Laxmi Organic Industries Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Financial Statement of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of Financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to

error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Mumbai, Dated: October 30, 2020 Mumbai, Dated: October 30, 2020

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER RELATED NOTES

A Corporate Information:

Laxmi Organic Industries Limited ("LOIL" or "The Company") is the Goenka Group's flagship company, established in 1989 and is in the business of specialty chemicals. The Company primarily manufactures Ethyl Acetate, Acetic Acid and Diketene Derivative Products (DDP). DDP is a specialty chemical group, the technology and business of which has been acquired by LOIL from Clariant Chemicals India Limited. LOIL is currently the only manufacturer of DDP in India.

The financial statements were authorised for issue in accordance vide resolution of the Board of Directors on October 30, 2020.

B Basis of Preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "IND AS") as prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time.

These financial statements are prepared under the historical cost convention on the accrual basis except for certain financial instruments, which are measured at fair values, which are disclosed in the Financial Statements.

The classification of assets and liabilities of the Company is done into current and non-current based on the operating cycle of the business of the Company. The operating cycle of the business of the Company is less than twelve months and therefore all current and non-current classifications are done based on the status of reliability and expected settlement of the respective asset and liability within a period of twelve months from the reporting date as required by Schedule III to the Companies Act, 2013.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in Indian Rupees ('INR') and all values are rounded to the nearest lacs, except otherwise indicated.

C Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires managements judgments, estimates and assumptions that impacts the reported amounts of revenues, expenses, assets and liabilities, and the accompanying notes thereon. Uncertainty about these assumptions and estimates could result in outcomes that might require a material adjustment to the carrying amount of assets or liabilities in future periods.

Estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of circumstances surrounding the estimates. Changes in estimates are reflected in the financial statement in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

Judgments

The Company's management has made the following judgments, which have the most significant effect on the amounts recognised in the separate financial statements, while formulating the Company's accounting policies:

a Taxes

The Company is eligible for 100% tax holiday under section 80-IA of the Income Tax Act, 1961. As a result, timing differences arising and reversing during the tax holiday period are not recognized by the Company.

b Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Discount rate: The said parameter is subject to change. In determining the appropriate discount rate (for plans operated in India), the management considers the interest rates of government bonds in currencies which are consistent with the post-employment benefit obligation. The underlying bonds are reviewed periodically for quality. Those having excessive credit spreads are excluded from the analysis since that they do not represent high quality corporate bonds.

Mortality rate: It is based on publicly available mortality tables. Those mortality tables tend to change at an interval in response to demographic changes. Prospective increase in salary and gratuity are based on expected future inflation rates.

c Useful lives of property, plant and equipment

The company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

d Impairment of property, plant and equipment

For property, plant and equipment and intangibles an assessment is made at each reporting date to determine whether there is an indication that the carrying amount may not be recoverable or previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

e Impairment of investment

For determining whether the investments in subsidiaries, joint ventures and associates are impaired requires an estimate in the value in use of investments. In considering the value in use, the Directors have estimated the future cash flow, capacity utilization, operating margins and other factors of the underlying businesses / operations of the investee companies. Any subsequent changes to the cash flows due to changes in the above mentioned factors could impact the carrying value of investments.

f Inventories

The Company estimates the net realisable value (NRV) of its inventories by taking into account estimated selling price, estimated cost of completion, estimated costs necessary to make the sale, obsolescence considering the past trend. Inventories are written down to NRV where such NRV is lower than their cost.

g Recognition and measurement of other Provisions

The recognition and measurement of other provisions is based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the closing date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

D Summary of significant accounting policies

a) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

An asset is treated as current when:

It is expected to be realised or intended to be sold or consumed in normal operating cycle;

It is held primarily for the purpose of trading

It is expected to be realised within 12 months after the reporting period; or

It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Company classifies all other assets as non-current.

A liability is treated as current when:

It is expected to be settled in normal operating cycle;

It is held primarily for the purpose of trading;

It is due to be settled within twelve months after the reporting period; or

There is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

b) Property, plant and equipment (PPE)

- i Property, plant and equipment are stated at cost net of tax/duty credit availed, less accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes, commissioning expenses, etc. up to the date the asset is ready for its intended use. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.
- ii Long-term lease arrangements of land are treated as Property, plant and equipment, in case such arrangements result in transfer of control and the present value of the lease payments is likely to represent substantially all of the fair value of the land.
- iii Capital Work In Progress represents expenditure incurred on capital assets that are under construction or are pending capitalisation and includes Project expenses pending allocation. Project expenses pending allocation are apportioned to the property, plant and equipment of the project proportionately on capitalisation.
- iv Borrowing costs on Property, Plant and Equipment's are capitalised when the relevant recognition criteria specified in IND AS 23 Borrowing Costs is met.
- v Decommissioning costs, if any, on Property, Plant and Equipment are estimated at their present value and capitalised as part of such assets.
- vi An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.
- vii Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.
- viii The residual values and useful lives of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.
- ix The Property, plant and equipment existing on the date of transition are accounted on deemed cost basis by applying para D7AA in accordance with the exemption provided in IND AS 101 "First-time Adoption of INDian Accounting Standards" at previous GAAP carrying value.

c) Intangible assets

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible Assets without finite life are tested for impairment at each Balance Sheet date and Impairment provision, if any are debited to profit and loss.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

d) Depreciation methods, estimated useful lives and residual value

Depreciation on all assets of the Company is charged on Written down Value over the useful life of assets mentioned in Schedule II to the Companies Act ,2013 except in case of Property Pant and Equipment of Distillery unit at Satara which is calculated on straight line method on a pro-rata basis calculated as per useful life of assets mentioned in Schedule II to the Companies Act. 2013.

Lease hold land is amortized over the period of Lease.

e) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

In determining the amount of borrowing costs eligible for capitalization during a period, any income earned on the temporary investment of those borrowings is deducted from the borrowing costs incurred.

f) Impairment of Non-financial Assets:

On annual basis the Company makes an assessment of any indicator that may lead to impairment of assets. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. Recoverable amount is higher of an asset's fair value less cost to sell.

An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired.

The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

The recoverable amount is the higher between an asset's fair value less sale costs and value in use. For the purposes of assessing impairment, assets are grouped together at the lowest level for which there is separately identifiable cash flows (cash-generating units).

g) Inventories

Items of inventories are valued lower of cost or estimated net realisable value as given below.

i Raw Materials and Packing Materials:

Raw Materials and packing materials are valued at Lower of Cost or market value, (Cost is

net of Excise duty and Value Added Tax, wherever applicable). However materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Costs are determined on Weighted Average method.

ii Work in process:

Work in process are valued at the lower of cost and net realizable value. The cost is computed on weighted average method.

iii Finished Goods & semi finished goods:

Finished Goods & semi finished goods are valued at lower of cost and net realizable value. The cost is computed on weighted average method and includes cost of materials, cost of conversion and other costs incurred in acquiring the inventory and bringing them to their present location and condition. Excise duty is considered as cost for finished goods, wherever applicable.

iv Stores and Spares:

Stores and spare parts are valued at lower of purchase Costs are determined on Weighted Average method and net realisable value.

v Traded Goods:

Traded Goods are valued at lower of purchase cost and net realisable value.

h) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits with banks, which are short-term, highly liquid investments, that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

i) Equity investment

All equity investments in scope of IND AS 109 are measured at fair value. Equity instruments, which are held for trading, are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

j) Foreign Currency Translation:

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income or expenses in the period in which they arise.

Non-monetary items, which are carried at historical cost denominated in a foreign currency, are reported using the exchange rates at the date when the fair value is determined.

The gain or loss arising on translation of non-monetary items is recognized in line with the gain or loss of the item that gave rise to the translation difference.

The exchange gain or loss on conversion of the financial statements for the purposes of consolidation are carried in other comprehensive income to be reclassified into statement of profit and loss on disposal.

k) Provisions, Contingent Liabilities and Contingent Assets

i Provisions

The Company recognizes a provision when: it has a present legal or constructive obligation as a result of past events; it is likely that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized

for future operating losses. Provisions are reviewed at each balance sheet and adjusted to reflect the current best estimates. Long term provisions are fair valued to the net present value and the same are increased each year by providing for the finance portion at the EIR of the respective company.

ii Contingent liabilities

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably.

iii Contingent Assets

A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

I) Onerous contracts

A provision for onerous contracts is measured at the present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Company recognizes impairment on the assets with the contract.

m) Employee Share - based payment plans ('ESOP')

The Company accounts for the benefits of Employee share based payment plan in accordance with IND AS 102 "Share Based Payments" except for the ESOP granted before the transition date which are accounted as per the previous GAAP as provided in IND AS 101 first time adoption.

n) Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest."

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-

assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

o) Financial instruments

A Financial assets

i Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

ii Subsequent measurement

For purposes of subsequent measurement financial assets are classified in two broad categories:

- Financial assets at fair value
- Financial assets at amortized cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognized in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is measured at amortized cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at Fair Value through Other Comprehensive Income unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortized cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

All other financial asset is measured at fair value through profit or loss.

All equity investments other than investment on subsidiary , joint venture and associates are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss.

iii Derecognition of financial instruments

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either:
- a) the Company has transferred substantially all the risks and rewards of the asset, or
- b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

iv Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model to the Financial assets measured at amortized cost.

Expected credit losses are measured through a loss allowance at an amount equal to:

- the 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12-months ECL.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

B Financial liabilities

i Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and

borrowings including bank overdrafts, and derivative financial instruments.

ii Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- a. Financial liabilities at fair value through profit or loss
- b. Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IND AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied.

iii Loans and borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

iv Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of IND AS 109 and the amount recognized less cumulative amortization.

v Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

C Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

D Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under IND AS 109 are recognised in the Statement of Profit and Loss.

p) Revenue Recognition

A Revenue from Operations:

The company earns revenue primarily from sale of Chemicals. Laxmi Organic Industries is a speciality chemical manufacturer, focused on two key areas Acetyl Intermediates and Speciality Intermediates

Effective April 1, 2018, the company has applied IND AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognized. IND AS 115 replaces IND AS 18. The company has adopted IND AS 115 using the cumulative catch up transition method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under IND AS 18. Significant accounting policies – Revenue recognition in the Annual report of the Company for the year ended March 31, 2018, for the revenue recognition policy as per IND AS 18. The adoption of IND AS 115 does not have significant effect on the financial results.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is recognized at point in time when the performance obligation with respect to Sale of Chemicals or rendering of services to the Customer which is the point in time when the customer receives the goods and services.

Revenue from related parties is recognized based on transaction price which is at arm's length.

Revenue is measured at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates , sales return on transfer of control in respect of ownership to the buyer which is generally on dispatch of goods and any other taxes or duties collected on behalf of the Government which are levied on sales such as Goods and Services Tax (GST). Discounts given include rebates, price reductions and other incentives given to customers. No element of financing is deemed present as the sales are made with a payment term which is consistent with market practice.

Revenue from services is recognised when all relevant activities are completed and the right to receive income is established. This is applicable in case of Job Work services given by the Company to the Customers.

The Company disaggregates revenue from sale of goods or rendering of services with customers by product classification, geographical region and Customer Category.

Use of significant judgements in revenue recognition

- The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, price concessions. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component.
- The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct service promised in the contract.

• The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

B Other Operating Income / Other Income

- i) Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability. In respect of incentives attributable to the export of goods, the Company following the accounting principle of matching revenue with the cost has recognised export incentive receivable when all conditions precedent to the eligibility of benefits have been satisfied and when it is reasonably certain of deriving the benefit. Since these schemes are meant for neutralisation of duties and taxes on inputs pursuant to exports, the same are grouped under material costs.
 - The other export incentives that do not arise out of neutralisation of duties and taxes are disclosed under other operating revenue.
- ii) Revenue in respect of Insurance /other claims, commission etc. are recognised only when it is reasonably certain that the ultimate collection will be made.
- iii) Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.
- iv) Dividend income is recognised when the right to receive the same is established.
- v) Current investments are marked to market at the end of the relevant period and the resultant gains or losses are recognised in the Income statement.
- vi) For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.
- vii) Financial guarantee income: Under IND AS, financial guarantees given by the Company for its subsidiaries are initially recognised as a liability at fair value which is subsequently amortised as an interest income to the Statement of Profit and Loss.
- viii) Insurance Claim are accounted when the right to receive is established and the claim is admitted by the surveyor.

q) Employee benefits :

All employee benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognized during the period in which the employee renders related service.

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

Gratuity, a defined benefit obligation is provided on the basis of an actuarial valuation made at the end of each year/period on projected Unit Credit Method.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at each balance sheet date, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability),

are recognized immediately in the balance sheet with a corresponding debit or credit to other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods. Past service cost is recognized in the Statement of Profit and Loss in the period of plan amendment.

The Company recognizes the following changes in the net defined benefit obligation under employee benefit expenses in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements.
- Net interest expense or income.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

<u>Termination benefits</u>

Termination benefits are payable as a result of the company's decision to terminate employment before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The company recognizes these benefits when it has demonstrably undertaken to terminate current employees' employment in accordance with a formal detailed plan that cannot be withdrawn, or to provide severance indemnities as a result of an offer made to encourage voluntary redundancy. Benefits that will not be paid within 12 months of the balance sheet date are discounted to their present value.

Termination benefits are recognized as an expense in the period in which they are incurred.

r) Taxes:

Tax expenses comprise Current Tax and Deferred Tax.:

i Current Tax:

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments/ appeals.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

ii Deferred Tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amount in the standalone financial statement for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or liability settled, based on the tax rates (tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of major components of deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company have a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws. For items recognised in OCI or equity, deferred / current tax is also recognised in OCI or

For items recognised in OCI or equity, deferred / current tax is also recognised in OCI o equity.

iii MAT Credit:

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Group recognises MAT credit available as a deferred tax asset only to the extent that there is reasonable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The MAT credit to the extent there is reasonable certainty that the Company will utilise the credit is recognised in the Statement of profit and loss and corresponding debit is done to the Deferred Tax Asset as unused tax credit.

s) Leases:

Till March 31, 2019:

At the inception of each lease, the lease arrangement is classified as either a finance lease or an operating lease, based on the substance of the lease arrangement.

Operating lease:

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases.

Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

Finance leases:

Assets leased by the Company in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. A finance lease is recognized as an asset and a liability at the commencement of the lease, at the lower of the fair value of the asset and the present value of the minimum lease payments.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Leasehold lands are amortized over the period of lease. Buildings constructed on leasehold land are depreciated based on the useful life specified in Schedule II to the Companies Act, 2013, where the lease period of land is beyond the life of the building. In other cases, buildings constructed on leasehold lands are amortized over the primary lease period of the lands.

With effective from April 1, 2019:

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

Short-term leases and leases of low-value assets. The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense in Profit and loss account.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature. The Company did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

t) Research and Development:

Revenue expenditure on research and development is charged to Statement of Profit and Loss in the year in which it is incurred. Capital expenditure on research and development is considered as an addition to property, plant & equipment / intangible assets.

u) Earnings Per Share:

Revenue expenditure on research and development is charged to Statement of Profit and Loss in the year in which it is incurred. Capital expenditure on research and development is considered as an addition to property, plant & equipment / intangible assets.

v) Dividend Distribution:

Dividend distribution to the Company's equity holders is recognized as a liability in the Company's annual accounts in the year in which the dividends are approved by the Company's equity holders.

w) Trade Payables & Trade Receivables:

A payable is classified as a 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. These amounts are unsecured and are usually settled as per the payment terms stated in the contract. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the EIR method, less provision for impairment.

x) Government Grants:

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

- Government grants relating to the purchase of property, plant and equipment are included in liabilities as deferred income and are credited to the Statement of Profit and Loss in a systematic basis over the expected life of the related assets and presented within other income.
- Government grants relating to income are deferred and recognised in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

This space is kept blank intentionally

Notes

- 1.3. (*) The Company had entered into BOT agreement with Jarandeshwar SSK Ltd, Satara, Maharashtra to put up Distillery Plant (35 KLPD) on land acquired on lease basis from them. As per agreement the Company is entitled to operate the Distillery till February-2023 and thereafter to transfer the Distillery to Jarandeshwar SSK Ltd at depreciated value. There is a dispute with regards to the title and the lease agreement which is subjudice before the Debt Recovery Appellate Tribunal (DRAT) on account of action by the Lessor's Bankers. The Company, however has a physical possession of the Distillery Plant and is operating presently.

Expected Credit Loss Note

The Company uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in forward-looking estimates are analysed. Based on the past experience of receivables the Company has not provided for expected credit loss. However, the life time credit loss is provided on case to case basis.

The Company estimates impairment under the simplified approach. Accordingly, it does not track the changes in credit risk of trade receivables. The impairment amount represents lifetime expected credit loss. In view thereof, the additional disclosures for changes in credit risk and credit impaired are not disclosed.

maturity more than 12 months as

During the year, the Company's Unit 2 situated at Mahad was affected by floods. The Floods resulted in loss of Inventory and major repairs to Plant and Machinery. The Company made a claim with the Insurer. The Surveyor, pursuant to the survey of the claim and the loss, has approved the loss of Rs 384.68 lacs towards inventory and repairs cost which is accounted as receivable from Insurance Company. The relevant credits are given to the Inventory consumption and expenditure incurred on repair.

(b) Disclosures as required by Indian Accounting Standard (Ind AS) 19 Employee Benefits-Gratuity.

The Company has carried out the actuarial valuation of Gratuity and Leave Encashment liability under actuarial principle, in accordance with IND AS 19 - Employee Benefits.

Gratuity is a defined benefit plan under which employees who have completed five years or more of service are entitled to gratuity on departure from employment at an amount equivalent to 15 days salary (based on last drawn salary) for each completed year of service restricted to Rs 20 Lacs (previous year Rs ` Lacs). The Company's gratuity liability is entirely funded and leave encashment is non-funded.

i) The amount recognised in the balance sheet and the movements in the net defined benefit obligation of Gratuity over the year is as under:

(`in Lacs)

| | Particulars | March 31, 2020 | March 31, 2019 |

| | | 145.82 | 28.66 |

ii) Actuarial Assumptions

| Particulars | March 31, 2020 | March 31, 2019 |
|--------------------------------|-------------------|-------------------|
| Discount rate (per annum) | 6.15% | 7.40% |
| Salary growth rate (per annum) | 5% | 5% |
| Attrition rate | 7% | 7% |
| Mortality rate | 100% of IALM | 100% of IALM |
| | 2012-14 | 2006-08 |

The discount rate indicated above reflects the estimated timing and currency of benefit payments. It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, seniority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

iii) Sensitivity analysis

A quantitative Sensitivity analysis for significant assumption

| Particulars | Discount Rate | Salary Growth Rate | Attriation Rate | Mortality Rate |
|------------------------|------------------|-----------------------|--------------------|-------------------|
| Changes in Assumption | | | | |
| March 31, 2020 (%) | 1% | 1% | 50% | 10% |
| March 31, 2019 (%) | 1% | 1% | 50% | 10% |
| Increase in assumption | | | | |
| March 31, 2020 | 450.39 | 512.51 | 482.30 | 480.53 |
| March 31, 2019 | 319.58 | 360.68 | 344.48 | 339.40 |
| Decrease in assumption | | | | |
| March 31, 2020 | 514.35 | 451.15 | 475.34 | 480.34 |
| March 31, 2019 | 361.36 | 319.76 | 344.48 | 339.16 |

(c) Description of Risk Exposures

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

i) <u>Interest Rate risk:</u> The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

- ii) <u>Liquidity Risk:</u> This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.
- **Salary Escalation Risk:** The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
- **iv) Demographic Risk:** The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
- v) <u>Regulatory Risk:</u> Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity pay-outs (e.g. Increase in the maximum limit on gratuity of `20,00,000).
- vi) Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
- vii) <u>Investment Risk:</u> The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

27 Disclosure in accordance with Ind AS – 108 "Operating Segments", of the Companies (Indian Accounting Standards) Rules, 2015.

The Company is engaged in 'chemicals business' and 'power generation' and it is the primary segment. During the year ended March 31, 2020 and March 31, 2019, the power generation business does not meet the criteria mentioned in para 13 of the Indian Accounting Standard "Operating Segment" (IND AS 108) and hence the same is not separately disclosed.

During the current year there is no single customer contributing to more than 10% of the total sales for the year. However, in Previous year one of the Subsidiary contributed 11% of the total sales.

28 Disclosure on CSR Activity

- (a) Gross amount required to be spent by the Company during the year: ` 222.92 Lacs (P.Y. ` 170.50 Lacs)
- (b) Amount spent by the Company during the year (Including previous years unspent) is as follows:

| Particulars | 2019-20 | 2018-19 |
|------------------|---------|---------|
| Community | 3.73 | 1.98 |
| Medical & Health | - | 2.69 |
| Education | - | 6.58 |
| CSR Corpus | - | 315.26 |
| Total | 3.73 | 326.51 |

- (c) Amount unspent by the Company for the financial year 2019-20 is ` 218.89 Lacs (March 31, 2019 : ` 0.06 Lacs)
- 29 Disclosure in accordance with Ind AS 24 "Related Party Disclosures", of the Companies (Indian Accounting Standards) Rules, 2015.

Details are given in Annexure -1

30 Derivative Instruments and Unhedged Foreign Currency Exposure Details on unhedged foreign currency exposures

| Spare parts | 97.36 | 16.17 |

32. IND AS 116 "Leases"

a) Transition

Effective April 1, 2019, the Company adopted IND AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Thus the Company has recognised 'Right of Use' asset of ` 648.85 Lacs (excluding reclassification of ` 165.20 Lacs) and recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate of ` 656.96 Lacs as at April 1, 2019. On application of INDAS 116 the unamortised balance of prepaid security deposit is also transferred to Right of Use Asset which is depreciated over the balance life of lease.

In this approach, there is no requirement to restate comparative information rather the effects is given in retained earning. On account of adoption of INDAS 116 as at April 1, 2019 the retained earning of the Company has reduced by $\hat{}$ 51.26 Lacs.

IND AS 116 has resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

b) The following is the summary of practical expedients elected on initial application:

- 1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
- 2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
- 3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
- c) Movement in Right of Use assets Refer Note 1.2
- d) Movement in lease liabilities:

| Particulars | 2019-20 |
|---|----------|
| Balance at the beginning | - |
| Transition impact on account of IND AS 116 "Leases" | 656.96 |
| Addition | - |
| Finance Cost During the year | 42.26 |
| Payment of Lease Liability | (209.77) |
| Closing Balance | 489.45 |

The weighted average incremental rate applied to lease liabilities as at April 1, 2019 is 7.5% p.a.

e) The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

f) Undiscounted Contractual maturities of Lease Liability:

| Particulars | 2019-20 |
|----------------------|---------|
| Less than one year | 218.97 |
| One to two years | 215.86 |
| Two to five years | 100.17 |
| More than five years | - |
| Total | 535.00 |

g) The following is the break-up of current and non-current lease liabilities as at March 31, 2020

| Particulars | 2019-20 |
|------------------------------|---------|
| Current lease liability | 189.88 |
| Non-current lease liability | 299.57 |
| Balance as at March 31, 2020 | 489.45 |

33. Financial Instruments

i) The carrying value and fair value of financial instruments by categories as at March 31, 2020 and March 31, 2019 is as follows:

| | Carrying Value | | Fair Value | |
|---------------------------|-------------------|-------------------|-------------------|-------------------|
| | March 31, 2020 | March 31, 2019 | March 31, 2020 | March 31, 2019 |
| a. Financial Assets | | | | _ |
| Amortised Cost | | | | |
| Loans | 5,941.48 | 1,160.91 | 5,941.48 | 1,160.91 |
| Investments | 1,661.00 | 1,554.05 | 1,661.00 | 1,554.05 |
| Others | 4,350.38 | 180.93 | 4,350.38 | 180.93 |
| Trade receivables | 31,665.35 | 30,396.34 | 31,665.35 | 30,396.34 |
| Cash and cash equivalents | 2,162.83 | 494.98 | 2,162.83 | 494.98 |
| Other Bank Balances | 1,221.58 | 3,909.15 | 1,221.58 | 3,909.15 |
| Total Financial Assets | 47,002.62 | 37,696.36 | 47,002.62 | 37,696.36 |

| | Carrying Value | | Fair V | /alue |
|-----------------------------|-------------------|-------------------|-------------------|-------------------|
| | March 31, 2020 | March 31, 2019 | March 31, 2020 | March 31, 2019 |
| b. Financial Liabilities | | | | |
| Amortised Cost | | | | |
| Borrowings | 13,335.56 | 14,267.34 | 13,335.56 | 14,267.34 |
| Trade payables | 39,263.64 | 30,016.99 | 39,263.64 | 30,016.99 |
| Lease Liability | 489.45 | - | 489.45 | - |
| Others | 1,783.97 | 2,577.22 | 1,783.97 | 2,577.22 |
| Total Financial Liabilities | 54,872.63 | 46,861.55 | 54,872.63 | 46,861.55 |

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, book overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

34 Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value measurement hierarchy of financial assets and liabilities measured at fair value on recurring basis as at March 31, 2020 and March 31, 2019.

| | Fair Value measurement using | | | |
|---|------------------------------|---|--|--|
| | Date of Valuation | Quoted prices in active markets (Level 1) | Significant observable inputs (Level 2) | Significant unobservable inputs (Level 3) |
| Financial liabilities measured at fair value: | | | | |
| Forward Contracts | 31-Mar-20 | | (475.53) | |
| Forward Contracts | 31-Mar-19 | | 125.32 | |

35 Financial Risk Management

The Company is exposed to various financial risks arising from its underlying operations and financial activities. The Company is primarily exposed to market risk (i.e. interest rate and foreign currency risk), credit risk and liquidity risk. The Company's Corporate Treasury function plays the role of monitoring financial risk arising from business operations and financing activities.

Financial risk management, which includes foreign currency risk, interest rate risk, credit and liquidity risk are very closely monitored by the senior management, the Finance Committee and the Board of Directors. The Company has a Forex Risk Management policy under which all the forex hedging operations are done. The Company's policies and guidelines also cover areas such as cash management, investment of excess funds and the raising of short and long-term debt. Compliance with the policies and guidelines is managed by the Corporate Treasury function. The objective of financial risk management is to manage and control financial risk exposures within acceptable parameters, while optimising the return.

The Company manages its market risk exposures by using specific type of financial instruments duly approved by the Board of Directors as and when deemed appropriate. The Company reviews and approves policies for managing each of the above risk.

1) Market Risk

Market risk is the risk arising out of the fluctuations in fair value of future cash flows of a financial instrument because of changes in market prices. Market risk comprises three types of risk: interest

rate risk, foreign currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk includes loans and borrowings, deposits, investments and derivative financial instruments. The Company enters into the derivative contracts as approved by the Board to manage its exposure to interest rate risk and foreign currency risk, from time to time.

A) Foreign Currency Risk

Foreign currency risk also known as Exchange Currency Risk is the risk arising out of fluctuation in the fair value or future cash flows of an exposure because of changes in foreign exchange rates. Foreign currency risk in the company is attributable to company's operating activities and financing activities. In the operating activities, the company's exchange rate risk primarily arises when revenue / costs are generated in a currency that is different from the reporting currency (transaction risk). The Company manages the Net exposure based on a duly approved policy by the Board. The information is monitored by the Audit committee and the Board of Directors on a quarterly basis. This foreign currency risk exposure of the Company is mainly in U.S. Dollar (USD) and Euro (EUR).

The carrying amounts of the company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting periods expressed in foreign currency are as follows:

| | Assets | | Liabilities | |
|-----|-----------|-----------|-------------|-----------|
| | | | As at March | |
| | 31, 2020 | 31, 2019 | 31, 2020 | 31, 2019 |
| USD | 2,212,613 | 3,407,442 | 5,084,465 | 7,090,880 |
| EUR | 2,103,726 | 2,265,799 | 72,709 | 59,550 |
| AED | 522,688 | 332,803 | - | - |
| CHF | - | - | - | 7,880 |

Foreign Currency Sensitivity analysis:

The company is mainly exposed to USD and EURO fluctuations

| | As at March 3 | 31, 2020 | As at Marc | h 31, 2019 |
|------------------------------------|-------------------------------|---------------------------|-------------------------------|---------------------------|
| Impact on profit/loss for the year | Rupee Strengthens by 1% | Rupee weakens by 1% | Rupee Strengthens by 1% | Rupee weakens by 1% |
| USD | 21.44 | (21.44) | 48.56 | (48.56) |
| EUR | (16.70) | 16.70 | (1.59) | 1.59 |
| AED | (1.07) | 1.07 | (0.62) | 0.62 |
| CHF | - | - | 0.05 | (0.05) |

Foreign exchange derivative contracts

The Company uses derivative financial instruments exclusively for hedging the financial risks that arise from its commercial business or financing activities. The Company's Corporate Treasury team manages its foreign currency risk by hedging transactions that are expected to occur within 12 months for hedges of projected sales, purchases and capital expenditures. When a derivative contract is entered for the purpose of hedging, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of projected transactions, the derivatives cover the period of exposure from the point the cash flows of the said transactions are projected to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency. All identified exposures are managed as per the policy duly approved by the Board of Directors.

B) Interest Rate Risk Management

Interest rate risk arises from the movements in interest rates which could have effects on the Company's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having an agreed portfolio of fixed and variable rate borrowings. Out of the total borrowings, the amount of fixed interest loan is ` 148.76 Lacs and floating interest loan is ` 12,370.60 Lacs (March 31, 2019: Fixed interest loan ` 247.71 Lacs and Floating interest loan ` 10,619.77 lakh). With all the other variables remaining constant, the following table demonstrates the sensitivity to a reasonably change in interest rates on the borrowings:

| | 2019 | -20 | 2018-19 | | | | |
|--------------------|--|--|--|--|--|-------|--|
| | Rupee loans interest rate decreases by 1.00 % | USD loans interest decreases by 0.15% | Rupee loans interest rate decreases by 1.00 % | USD loans interest decreases by 0.15% | | | |
| Increase in Profit | 92.22 | 4.72 | 57.78 | 7.26 | | | |
| | 2019 | 2019-20 | | 2019-20 2018- | | 18-19 | |
| | Rupee loans interest rate decreases by 1.00 % | USD loans interest decreases by 0.15% | Rupee loans interest rate decreases by 1.00 % | USD loans interest decreases by 0.15% | | | |
| Decrease in Profit | (92.22) | (4.72) | (57.78) | (7.26) | | | |

C) Credit Risk Management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

To manage trade receivables, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and ageing of such receivables.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with counter parties who meet the parameters specified in Investment Policy of the Company. The investment policy is reviewed by the Company's Board of Directors on an annual basis and if required, the same may be updated during the year. The investment policy specifies the limits of investment in various categories of products so as the minimize the concentration of risks and therefore mitigate financial loss due to counter party's potential failure.

Financial assets for which loss allowance is measured:

| | As At March 31, 2020 | As At March 31, 2019 |
|---|-------------------------|-------------------------|
| Trade receivables (Refer Note 2.2) | 31,665.35 | 30,396.34 |
| Allowances for Credit Loss (Refer Note 2.2 (a)) | (29.74) | (29.33) |

Other than financial assets mentioned above, none of the Company's financial assets are either impaired or past due. There were no indications that there would be defaults in payment obligations.

D) Liquidity Risk Management

Liquidity risk is the risk of non-availability of financial facilities available to the Company to meet its financial obligations. The Company's objective is to maintain a balance between continuity of funding and flexibility using money market instruments, bank overdrafts, bank loans and other types of facilities. The liquidity management is governed by the Board approved liquidity management policy. Any deviation from the policy has to be approved by the Treasury Management comprising of Managing Director, Chief Financial Officer and Treasury Head. The Company assesses the concentration of risk with respect to refinancing its debt, guarantee given, and funding of its capital expenditure needs of the future. The Company manages its liquidity by holding appropriate volumes of liquid assets which are available to its disposal on T +1 basis and by maintaining open credit lines with banks / financial institutions.

The table below analyse the Company's financial liabilities into relevant maturity based on their contractual maturities:

| | Within one year | Between 1 to 2 years | Between 2 to 5 years | Beyond 5 years |
|-----------------------------|-----------------|----------------------|----------------------|-------------------|
| As at March 31, 2020 | | | | |
| Borrowings* | 4,320.23 | 3,556.50 | 5,458.84 | - |
| Trade Payables | 39,263.64 | - | - | - |
| Other financial Liabilities | 1,783.97 | - | - | - |
| | 45,367.84 | 3,556.50 | 5,458.84 | - |
| As at March 31, 2019 | | | | |
| Borrowings* | 6,806.72 | 3,026.26 | 4,434.36 | - |
| Trade Payables | 30,016.99 | - | - | - |
| Other financial Liabilities | 2,577.22 | - | - | |
| | 39,400.93 | 3,026.26 | 4,434.36 | - |

^{*} including Current Maturity of non current borrowing

Note - Maturity profile of Lease liability is given in Note 32(f)

36 Capital management

The Company continues its policy of a conservative capital structure which has ensured that it retains the highest credit rating even amidst an adverse economic environment. Low gearing levels also equip the Company with the ability to navigate business stresses on one hand and raise growth capital on the other. This policy also provides flexibility of fund raising options for future, which is especially important in times of global economic volatility.

| | March 31, 2020 | March 31, 2019 |
|--------------------------|----------------|----------------|
| Gross Debt | 13,335.56 | 14,267.34 |
| Less: | | |
| Cash and Cash Equivalent | 2,162.83 | 494.98 |
| Other Bank Balance | 1,319.04 | 3,954.15 |
| Net debt (A) | 9,853.69 | 9,818.21 |
| Total Equity (B) | 44,091.77 | 45,550.70 |
| Gearing ratio (A/B) | 0.22 | 0.22 |

37 Exceptional Items

During the year the Company has received Eligibility Certificates from Directorate of Industries, Government of Maharashtra under the Package Scheme of Incentive - 2007 for Electricity Duty exemption and Package Scheme of Incentive - 2013 VAT and CST refunds.

(a) Electricity Duty

Pursuant to the terms of the Eligibility Certificates the Company is exempted from paying the Electricity duty from 15 years starting from 1 April 2010 till 31 March 2025. Accordingly, MSEDCL has granted the exemption to the Company from paying the electricity duty w.e.f. Oct-2019 and the electricity duty exemption got reflected in October 2019 Electricity Bill. Simultaneously, the MSEDCL has also confirmed the refund of the total electricity duty amounting to `1,522.47 Lacs ("Electricity Duty Refund") which the Company has paid from 1 April 2010 till 30 September 2019. Accordingly, although the Electricity Duty Refund has not yet been received by the Company, the same has been accounted as an exceptional item (net of expenses) which pertains to period April 2010 to Sept 2019.

(b) Vat and CST Refunds

Pursuant to the terms of the Eligibility Certificates the Company is eligible to get refund of the VAT and CST which the Company has paid during the period between 1 October 2014 to 31 March 2017). Accordingly, the Directorate of Industries has issued the Provisional Sanction of Industrial Promotion Subsidy dated February 18, 2020 whereby refund of `1,501.36 lacs has been sanctioned by the Directorate of Industries and VAT Department. The Company has recognised income of `1,501.36 Lacs as an exceptions item in Statement of profit and loss (net of expenses).

- 38 The Board of Directors at their meeting held on October 30, 2020 has recommended dividend of `1.75 per equity share which is subject to shareholder approval at the Annual General Meeting. The total payment of this account on approval by the members would be `787.79 lacs (previous year `211.16 lacs including dividend distribution tax).
- 39. The outbreak of COVID -19 has severely impacted many businesses around the world including India. Although there has been various directives of Central / State Governments relating to lockdown, the Company has obtained requisite permissions, as applicable, from the concerned Government authorities to run its manufacturing operations since it falls under the essential services.
 - Management has carried out a detailed assessment of the impact of COVID-19 on its business operations and liquidity position, and has concluded that, in the preparation of the standalone financial results, it has taken into account all known events arising from COVID-19 pandemic. However, the Company will continue to monitor any material changes to future economic conditions.
