NEWS RELEASE

Laxmi Organic Industries Ltd announces price revision for Essentials Products

Mumbai (4th March 2026)

Dear Valued Customer,

This is to inform you of an immediate price revision across our Essentials Business portfolio.

The ongoing war involving Iran has led to heightened uncertainty in global energy markets and disruptions to shipping movements through the Strait of Hormuz. Global crude prices have increased sharply, resulting in a significant rise in downstream derivative prices. Key feedstocks such as acetic acid and ethanol have risen rapidly, energy inputs including coal have firmed up, shipping lines have implemented freight surcharges, and INR depreciation has further escalated import parity costs.

These cumulative pressures have substantially increased our raw material, manufacturing, and logistics costs. Therefore, a price adjustment has become necessary to ensure supply stability and sustained service levels.

Revised Price Increase (effective immediately)

Product	Change in Price (₹/kg)
ETAC	+4.00
AAH	+6.00
NPAC	+4.00
BUTAC	+4.00
ALD	+5.00

Given the evolving geopolitical situation, should the conflict prolong and input or logistics costs continue to escalate, further price revisions may become necessary to offset the impact of rising costs.

Customers are requested to plan their procurement accordingly in view of the current rise in input and logistics costs.

We remain committed to ensuring reliable supplies to our valued customers and appreciate your continued understanding and support.

For any clarification, please contact your respective relationship or sales manager.
