### NEWS RELEASE

#### **Laxmi Organic Industries Ltd announces further price revision for Essentials Products**

Mumbai (6<sup>th</sup> March 2026)

Dear Valued Customer,

Further to our price revision communication dated **4<sup>th</sup> March 2026**, we would like to inform you of an additional price adjustment across our **Essentials Business portfolio**.

The geopolitical conflict involving Iran continues to intensify and has now begun to spread tensions across the West Asia region, creating significant volatility in global energy markets and international trade flows. This has resulted in a **sharp escalation in key feedstock prices**, steep increases in **sea freight**, and **supply chain disruptions affecting the availability of imported raw materials**.

These developments have further increased our procurement, manufacturing, and logistics costs over the past few days. In addition, delays and uncertainties in inbound supply chains have begun to impact material availability in the market. Consequently, an additional price revision has become necessary.

#### **Additional Price Increase (Effective Immediately)**

<b>Product</b>	<b>Additional Increase (₹/kg)</b>	<b>Total Increase Since 4<sup>th</sup> March (₹/kg)</b>
Ethyl Acetate	+5.00	+9.00
Acetic Anhydride	+8.00	+14.00
n-Propyl Acetate	+5.00	+9.00
n-Butyl Acetate	+10.00	+14.00
Acetaldehyde	+10.00	+15.00

Given the continued escalation in geopolitical tensions, volatile freight markets, and constrained availability of certain imported raw materials, the cost environment remains **highly dynamic**. Should these conditions persist, **additional price adjustments may become necessary**.

Customers are therefore **strongly advised to plan and secure their requirements proactively** in order to ensure continuity of supply.

We remain committed to supporting our customers with reliable supply and thank you for your continued partnership.

For any clarification, please contact your respective relationship or sales manager.
